# TMC SPECIFICATION NO. S -567

*MJK*  
COMPILED

*N.P.*  
CHECKED

TITLE: TMC SOURCE CODING OF PARTS AND ASSEMBLIES

APPROVED *BP*

## PURPOSE:

To define coding procedures to be used in preparation of TMC component drawings.

1. All TMC drawings are categorized as follows:
  - A. TMC Proprietary Components and Assemblies
  - B. JAN/MIL-STD Components
  - C. Vendor items (use S-401, TMC's manufacturer's listing).
2. It is TMC policy to retain proprietary rights for unique components originated by this company.
3. TMC component drawings will not contain reference to manufacture, except by a code(S-401) known internally only, as described in category "C" above.
4. The originator of a drawing is responsible for recommending the appropriate category in which the drawing is to be placed.
5. Drawings in Category A will be marked to indicate TMC proprietary claim. Drawings in Categories B and C will not be so marked.
