COMPILED BY
D. W. CARTER

TITLE: RF AMMETER REPLACEMENT
AN/PRT-39 - GPT-10K RADIO TRANSMITTER

JOB

APPROVED 

I. ITEMS SUPPLIED

- A. One (1) each MR-126 RF Ammeter.
- B. One (1) each TH-100-20 Thermocouple.
- C. One (1) each 5/16" Twist Drill.

II. PROCEDURE

- A. Remove existing RF Ammeter and Thermocouple.
- B. Install the new meter, MR-126, supplied, in the space vacated by Step A. above. Since the location of mounting studs for the new meter are slightly different, it is necessary to enlarge the mounting holes (4) in the Meter Panel. The 5/16" Twist Drill is supplied for this purpose.
- C. The RF Ammeter and Thermocouple removed in Step A. above should be returned to the Technical Materiel Corporation, 700 Fenimore Road, Mamaroneck, New York marked for the attention of Mr. D. W. Carter. It is suggested that the container and packing in which the new Meter and Thermocouple was received be utilized for packing and return.
